

ABA:74819345

Arc

The image displays a brain scan, likely an axial slice, with two hemispheres visible. A central region, possibly the corpus callosum or a midline structure, is highlighted in a bright blue color. The brain is set against a black background. A white grid is overlaid on the image, consisting of a vertical line and a horizontal line that intersect at the center of the brain. The text 'ABA:74819345' is located in the top left corner, and 'Arc' is in the bottom left corner.
