

ABA:74821914

CA1

This image shows a fluorescence micrograph of a brain section, likely from a rodent, stained with a blue fluorescent marker. The signal is concentrated in a specific region, possibly the CA1 area of the hippocampus, as indicated by the label 'CA1' in the bottom left. The signal appears as a bright blue, curved structure against a dark background. The image is overlaid with a white grid, and the text 'ABA:74821914' is visible in the top left corner.
