

ABA: 74988721

Hb

This is an axial brain scan image, likely from a functional imaging technique such as fMRI or PET. The image shows a cross-section of the brain with a color scale where blue represents lower values and yellow/green represents higher values. The brain's gyri and sulci are visible. A vertical line and a horizontal line intersect at the center of the brain, dividing the image into four quadrants. The text 'ABA: 74988721' is located in the top left corner, and 'Hb' is in the bottom left corner.
