

ABA: 75831724

CA1

This is a fluorescence microscopy image of a brain section. The image is divided into four quadrants by a white crosshair. The left half of the image shows a complex, convoluted structure, likely the hippocampus, with a prominent yellow-green signal in the upper-middle part and a smaller yellow-green spot in the lower-left. The right half of the image is mostly dark blue, indicating a lack of signal or a different tissue type. The text 'ABA: 75831724' is in the top-left corner, and 'CA1' is in the bottom-left corner.
