

ABA:79568028

Pn

The image displays a coronal brain scan. The brain's structure is visible, with the cerebral hemispheres on either side of the midline. The color scale indicates varying levels of signal intensity, with the most intense areas (yellow/green) located in the posterior region, likely corresponding to the occipital lobes. The text 'ABA:79568028' is positioned in the upper left corner, and 'Pn' is in the lower left corner. A vertical line and a horizontal line intersect at the center of the brain, possibly indicating a reference point or a specific anatomical plane.
