

ABA: 79591597

A anterior

A grayscale medical scan, likely a CT or MRI, showing a cross-section of a brain. A prominent red, semi-transparent overlay is visible, covering a large portion of the brain tissue. The overlay has a complex, somewhat symmetrical shape, with a central vertical gap. The background is dark, and the brain tissue is shown in shades of gray. The text 'ABA: 79591597' is in the top left, and 'A anterior' is in the bottom left.
